

10 June 1969

MEMORANDUM FOR: D/DCI/NIPE

SUBJECT : Desk Computer

25X1A

1. OPPB has procured a desk electronic calculator which has the capability of handling four separate console pairs. Mr. Roy [REDACTED] has agreed to permit SAC to use one of the console pair connections if we procure the two desk units and the cabling. The total cost of the package procured by OPPB was about \$5,000.00. For us to acquire access to this will cost us only an additional \$1,135.00. This gives us a considerably improved capability over the desk calculators we are now using.

2. In view of the cost-benefit resulting from the friendly cooperation by PPB, I recommend approval of the needed \$1,135.00 out of FY 1969 funds.

MEMORANDUM FOR : Chief, Procurement Division, Office of Logistics

SUBJECT : Justification for Procurement of Desk Computer from FY 1969 funds (Requisition #1001-152-69)

The Deputy to the Director for National Intelligence Programs Evaluation (NIPE) has approved the need for procuring two model 320 Key Boards for use with the Wang Electronic Calculator. The Office of Planning, Programming and Budgeting has procured the Wang Electronic Desk Computer and has agreed to permit the Systems Analysis Group (SAG) of the NIPE Staff to use one of the console pair connections. SAG/NIPE analyzes considerable information presented in mathematical form and performs mathematical computations from this information. The final product from the computation and analysis is presented to the Director in support of his Community role. The mechanical desk calculators now being used do not provide the needed capability. It has been determined that FY 1969 funds are available to procure the two Keyboards, the T connector and the needed cable.

Your approval for this priority procurement action is requested.
